

A new contract with  **Elkem**

Transport F. Gilbert doubles its bulk!

A few weeks ago, Transport F. Gilbert team received great news. We were selected as the transportation company by Elkem Metal of Chicoutimi to deliver all their raw material and finished products. In total, it represents more than 30,000 MT of finished product being delivered to Sorel and Hamilton, and 10,000 MT of raw material coming from Sorel and Contrecoeur.

This successful achievement is the result of all our employee's joint efforts. Our employees' dedication strongly contributed in obtaining this contract. Nevertheless, we will meet our greatest challenge in the upcoming months, in order to fulfil this new contract to perfection. Everyone will have to get involved for this mission to be successful, this involving a thorough customer service, highly efficient operations and strict health and safety standards.
