

News from Rupert

October 2009

Good day to you all,

The Rupert building site is almost coming to an end. Site projects are almost completed, besides a few details. Since the beginning of October, demobilization is making good progress and the garage unit is now the size of a container.

The Rupert building site was a fulfilling experience for our young team, on a professional level as well as on a personal level. This project brought out the best in each one of us. Given its complexity and large scale, we had to remain strategic and raise the bar many times. From the virtual image to the actual work, we worked relentlessly for two years. So, now time has come to spend more quality time with our loved ones. On a sad note, our thoughts go to our two beloved colleagues, David Girard and Rene Brunel who passed away. May you rest in peace. Your presence is imbedded in our memories.

I would like to take this moment to congratulate everyone who participated in this major project and made it such a success. I believe that our strong team spirit has led us to this success. A combination of youth and experience, splendid ideas, a hint of imagination, a general will to succeed, mental steadfastness, and some humour were the perfect ingredients to this recipe. Blend all those together and you will get a wonderful team who I really enjoyed working with.

Thank you and congratulations again to our team. I wish you all the best in the future.

Nobody knows what life has in store for us,
but we're already heading on the road of new challenges.

Eric L'Espérance, Superintendent.
