

THE RECOGNITION OF COMPETENCIES (RAC) PROGRAM AT TRANSPORT F. GILBERT

Since August 2009, Transport Fernand Gilbert has embraced the “*Recognition of Competencies*” program for its truck driver team. This program is conducted in partnership with the Charlesbourg driving school, and offers truck drivers the opportunity to obtain a “*Transport par camion*” diploma issued by the MELS. Thanks to the experience our drivers already have acquired throughout the years, they can obtain their diploma after only taking the practical driving test, without having to go through the technical written part again.

We are pleased with the participation of our drivers in this program. This will definitely be an asset to our company. Formally recognizing our truck driver’s acquired competencies will help our company standing out among others to the public.
